

Hi Fi '99 in Chicago - 2nd place for Best Sound of the Show

In Chicago Hi Fi '99, VTL teamed up with Joseph Audio, Oracle Audio, Cardas Cables, Graham Engineering and Stanalog Audio Imports to capture second place best sound.

VTL introduced the new [MB-750 Reference](#) Monoblock amplifiers, driving the Joseph Audio Pearl loudspeakers. The analog front-end was the Oracle Delphi turntable, using a Graham 2.0 Reference tone arm and van den Hul Frog moving coil cartridge, and the digital front end was the Oracle Reference CD Turntable. The entire system was wired with Cardas Golden Reference Interconnects and the Cardas Neutral Reference speaker cables, all with power conditioning provided by Audio Power Industries. top
